Women's Care

PRIMEROS PASOS PRENATAL CLINIC

One of the first steps toward having a healthy baby is receiving good medical care before, during, and after your pregnancy. At our Primeros Pasos Prenatal Clinic, we provide the attention and information you need to give your baby a good start in life.

Prenatal Care

At our clinic, you can obtain free pregnancy testing. No appointment is required for this service. We also provide complete prenatal care from conception to post-delivery. During regular office visits, your doctor will check to make sure you and your baby are healthy. If there are any problems, early action will help both of you.

Prenatal Education

We offer a complete prenatal education program so you can learn about:

- Childbirth – how to prepare for labor and delivery
- Breastfeeding
- Caring for a newborn
- Car seat safety
- Carondelet St. Joseph's Birthing Place

Our classes are taught in both English and Spanish by experienced Registered Nurses who are certified Childbirth Educators. Through these classes, the nurse educator will help you and your family prepare for the birth of your baby and the first few months following the birth.

PAYING FOR SERVICES

If you qualify, our knowledgeable office managers can help enroll you in the Baby Arizona Program on your first visit to our clinic. Payment options are available and we accept most insurance plans.

PHYSICIANS AND STAFF

Our doctors are experienced obstetricians/gynecologists who are dedicated to providing you with the care and attention you and your baby deserve. They, along with our well-trained clinical staff, will answer any questions or concerns you may have before, during, or after your pregnancy.
